Blaze Ignites More Ammunition at Disaster Scene, Halting Work of Men Removing Bodies

DOVER (N. J.) July 12. (AP)—New Jersey's shell-rack area trembled before the threat of another disastrous bombing tonight. Flames, smoldering for three days, flared and

with a shifting wind and fired one of the dozen magazines remaining in Lake Denmark's burning arsenal. The other magazines were endangered by the explosion and the task of reclaiming the dead of Saturday's disaster was abandoned temporarily.

CHINA ARMY WITHSTANDS ONSLAUGHTS

**'Attempts of Wu and Chang
to Eliminate Nationalists
Meet With Failure**

PEKING, July 12. (AP)—Efforts of the forces of Marshal Wu Pei-Fu and Marshal Chang Tso-Lin to eliminate the national army troops of the government they deposed last April are meeting with stout resistance.

...Despite daily reports of victories of the allied troops since they launched their attack on Nankow Pass more than a week ago, apparently they have accomplished nothing. Beyond Nankow Pass the national army is based at Kaigan, close to the Gobi desert.

Cannon fire can be heard in Peking from Hsialai, key to Nankow Pass, which troops of Gen. Tien Wei-Chin, Lieutenant of Wu Pei-Fu, are bombarding.

A large force of Manchurians, sent by Chang Tso-Lin, is preparing to strike the left flank of the national

Chang Tso-Lin has proceeded to his capital at Mukden, where he rules as dictator of Manchuria, despite the plea of Wu Pei-Fu that he stand by the allied troops until the fall

of Kalgan. Chang apparently is content to leave the full direction of the campaign in the hands of Wu. W. Botte, Jr., of Richmond, Va., one of the others. Mrs. Freeman's body was claimed by relatives today.

FUNERAL CONDUCTED

Funeral services, the first for a victim of the disaster, were conducted today for Lin. Botte stated that the body of the woman was not yet recovered.

China Restored to Orient Rule

SHANGHAI, July 12. (P) — An unofficial but authoritative report says the Consular morning body after

conferences with Chinese officials, has drafted an agreement virtually restoring completely the mixed courts in China to Chinese control. The Chinese have been fighting for this ever since the revolution of 1912 when the republic was established.

The agreement is being submitted to the Diplomatic Corps for final decision.

The mixed courts were established for hearing cases in which foreign interests were involved.

DOUBLE INQUIRY IN DISASTER

Secretary Wilbur Orders Investigation of Cause and Extent of Damage in Arsenal Explosion

WASHINGTON, July 12. (Exclusive)—Acting under orders from Secretary of the Navy Wilbur, naval officials tonight prepared to launch a double-barreled investigation into the Lake Denmark ammunition depot disaster. One investigation is to determine the cause and extent of damage to government property, the other will ascertain the damage to civilian property.

◆ Assistant Secretary of the Navy Robinson announced this afternoon that the Navy will attempt to transmute the

Another inquiry to investigate the amount of damage done to the army property at Picatinny arsenal will be begun within the next few days by Secretary of War Davis.

Far-reaching consequences, as far as the storage of ammunition is concerned, will be the result of the explosion which will be useful later on to either rebuilding the depot or to other rebuilding to the extent of the damage done to the depot.

cerned, may follow the conclusion of the investigation into the causes of the Denkm Lake explosion.

Officials stated that as a result of the apparent failure of lightning rods to avert this disaster, it may be necessary to store more ammunition underground. Others were of the opinion

During the investigation, the order was given by Commander F. G. Corderford, a powder expert; Commander G. W. Patterson, an authority on the storing of explosives and an expert from the Du Pont Powder Company will be the first to go.

Examinations of photographs

tion that less ammunition will be stored in any one area in the future and buildings will be built much farther apart.

It is possible that it will be found necessary to move the ammunition dump at Lake Denmark to another location further away from centers of

he civilian population. Both War and Navy Department officials said, however, that neither the army nor navy arsenal could be moved without Congressional authority.

First Pictures of Terrific Inferno Raging After Explosions Rend Navy Arsenal and Spread Death and Ruin

Further Explosions Take Place at Arsenal While Guards Keep Out Citizens From Danger Area

(Continued from First Page)

with an official party entered the searching "no man's land" for a personal survey.

The whole region had the aspect of a battlefield today with uniformed men deploying across the smoking hills. Red Cross stations in operation and Salvation Army relief stations ministering to the needy.

The district was under strict guard to prevent any added confusion by an influx of curiosity seekers. All roads were posted with sentries and the only ones allowed to pass were the owners of homes in the explosion area who fled on Saturday. Many of these came back today with pitiful hopes that they would find something worth saving, but in most instances all they found were tumbled walls and blackened boards. Their houses were torn with shell holes, their houses gone, their possessions scattered and burned.

Officers reported that the Pleasanton army arsenal had been saved from a fate similar to that of the naval depot only by a miracle of chance. One building of the army arsenal which had been filled with TNT had been completely emptied a few hours before the explosion. Shell fragments pierced this building and it had still held its deadly contents the whole arsenal would have been blown up, officers believed.

Luck seemed to have dealt kindly all around with the army arsenal. Although shell fragments from the navy ammunition dump pierced every army building not one person in the place was injured.

DEAD RECOVERED

BY HEROIC COMRADES

DOVER (N. J.) July 12. (Exclusive) Crawling on their stomachs, soiled, smoking ruins at the scene of the Lake Denmark naval munitions explosion today and brought back the charred bodies.

The first searching party went in from the southeast under Capt. W. R. Sayles and Lieut. B. C. Shearer. They were accompanied by three naval doctors, eight naval hospital corps men and four marines with stretchers. They picked their way cautiously between shell holes and through debris. The ground was covered with gravel and splinters, the remains of what had been bricks, concrete and roof slates. They had been pulverized by the explosion. In some places the explosion had swept the ground bare of everything. In others it had piled the remains of buildings, freight cars and other rolling stock used in the arsenal railroad system, telegraph poles, corrugated-iron roofing, slabs of concrete pavements and foundations and crumpled and twisted railroad tracks.

Some of the 160 wrecked buildings were represented by nothing except the smashed concrete of the foundations.

Picking their way among these ruins and over jagged shell fragments and scattered building materials, the searching party made its way toward the depth-bomb magazine which was the first to explode following fire that resulted from lightning. They expected to find most bodies near this building. The marines had rushed to this building from their barracks and other posts of duty on hearing the first whistle which was turned in by Capt. Dowling on Saturday afternoon. Before they could reach the flames, however, the first great explosion occurred. This was followed in quick succession by two others. In these first three explosions most of the lives are believed to have

been lost. Those that survived the first three explosions had a chance to run for their lives.

True to anticipations, bodies were found thick by the searchers around this first magazine. The first body found was that of Pharmacist's Mate Harry Christian Brown. His body lay near building No. 331, a powder magazine, a short distance from the depth-bomb factory, flat against the ground. A telegraph pole had fallen on him, the cross-piece resting on his head. Most of the clothing had been burned from the body, but the face was still recognizable. The discovery of other bodies followed rapidly. The majority were charred. Four of them were in fragments. Trunks and extremities had been separated and flung considerable distances.

One charred body was found at the edge of a great shell hole beside a section of railroad track and ties, one side of which stood up clear of the ground. Most of the shell holes were not craters, like those of the war zone, but shallow depressions. As one body was being carried out on a stretcher another body was discovered close to the depth-bomb factory, now one vast shell hole lined with jagged chunks of concrete. It was with difficulty that this was identified as a human body. It was charred so that it might have been taken for burnt timbering. Identification was impossible. Later an attempt will be made to establish identity through the teeth and dental work.

As the searching parties worked their way through the ruins, explosions occurred from time to time. Now and then a navy cartridge headed at last to the exploding point threw a fourteen or sixteen-inch shell into the air or sent it plowing and tumbling through the debris.

HIGH NAVY OFFICIALS DISCUSS BLAST CAUSE

WASHINGTON, July 12. (AP)—The explosion at the Lake Denmark naval arsenal was discussed today at a conference of all high naval officials in Washington with Acting Secretary Robinson.

Department officials are inclined to accept the theory that a lightning bolt, striking building No. 8, was responsible for the disaster. The structure was a one-story building of brick with tar and gravel roof. It was protected by a double copper plating of the question, decided it is of little use to install rods on munitions magazines.

The Navy had a similar experience at the Indian Head powder factory some years ago, when an explosion was attributed to a lightning bolt. Rear Admiral Joseph S. Sigsbee, former chief of ordnance and then commanding at Indian Head, so reported to the department. In the case of Lake Denmark, Rear Admiral C. C. Block, the present ordnance chief, believes the bolt set fire to the powder stored in building No. 8, and that the intensity of the fire was sufficient to detonate the explosives, starting the center of near-bombing houses. Fragments from the burning building, carried by the wind or thrown by the force of succeeding explosions, struck the other buildings, setting them on fire.

Two hundred marines from Quantico, Va., were doing guard duty at the arsenal when the explosion occurred.

"The situation is still dangerous," Secretary Wilbur said after his inspection. "We are taking every precaution and doing our best to keep people out of the danger zone. The present danger lies in the fact that there are still twelve or fourteen magazines in which are stored many thousands of shells. These magazines have not been damaged, but the wind may veer to the opposite direction and set fire to them."

Commenting on a report that officers of the arsenal had complained to him of the condition of the ammunition depot, Secretary Wilbur said:

"That is untrue. I received no complaints of the arsenal being in a dangerous condition. I know that every precaution was taken to avoid such disasters. The Navy had the advice of the best experts as to the conditions here, as regards lightning and other dangers."

During his inspection Secretary Wilbur went into the danger zone several times, once penetrating the devastated area to the point of entering the arsenal.

SIX MORE IDENTIFIED BY FINGERPRINT CHARTS

NEW YORK, July 12. (AP)—Six additional bodies of the victims of the Lake Denmark arsenal explosion were identified tonight by means of fingerprint records at the Brooklyn Navy Hospital. They are:

wrecked buildings miles away, the record of the marines emerged today without a blemish.

Secretary of the Navy Wilbur, coming out of the shell-plowed grounds of the naval arsenal at Lake Denmark, N. J., with explosions of shells in blasted magazines punctuating his sentences, today told the story of how the marines died running into danger instead of away from it.

"The position of the body of every man found proved that he died responding to the fire call that was sounded when the lightning struck the TNT magazine Saturday," Secretary Wilbur said. "The position in which their bodies were found indicated they were going to the explosion to put out the fire and not seeking safety."

Two hundred marines from Quantico, Va., were doing guard duty at the arsenal when the explosion occurred.

"The situation is still dangerous," Secretary Wilbur said after his inspection. "We are taking every precaution and doing our best to keep people out of the danger zone. The present danger lies in the fact that there are still twelve or fourteen magazines in which are stored many thousands of shells. These magazines have not been damaged, but the wind may veer to the opposite direction and set fire to them."

Fourteen Rich San Franciscans Pledge Wealth

SAN FRANCISCO, July 12. (AP)—Fourteen of San Francisco's wealthiest men, representing fortunes in excess of \$100,000,000, today in the Palace Hotel and formed a community foundation under which millions of the surplus wealth of the richer families will be donated to the future benefit of the community as a whole.

Under plans advanced at the meeting, each of the members of the new organization will make specific gifts for charitable, scientific and educational purposes, and a self-perpetuating board of trustees will be formed to handle bequests after a donor's death.

Charles W. Merrill, civic and welfare worker, was appointed chairman. The call for today's meeting was issued by Merrill, William H. Crocker, banker, Mortimer Fleischacker, banker, Paul Shoup, railroad executive and member of the board of trustees of Stanford University, and Clay Miller, merchant.

DELAY STRIKE ULTIMATUM

Subway System Extends Time Limit for Return of Men Until Today as Both Claim Victory

NEW YORK, July 12. (AP)—The Interborough Rapid Transit Company announced today that the subway strikers will have until noon tomorrow to return to work or be permanently removed from the pay roll. The "zero" hour had been set for noon today but company officials announced they had received reports the men who wanted to return to work were being intimidated by strike pickets. They said that police would be appealed to prevent intimidation.

The principal development today in the strike, which has been in progress for a week, were counter-claims of impending victory by strike leaders and company officials, and reports of the first serious sabotage since the strike began.

Company officials said that 188 strikers had returned to work, and that more were coming all the time. Strike leaders placed defections from the strikers' ranks at "a handful," and announced new recruits had been gained from the signal tower men.

Police were told that two motor-men had been fired on while driving trains early this morning and investigations denied any knowledge of the attacks and pointed to often repeated injunctions from strike leaders that the strike would be conducted in an orderly and peaceful manner.

Ten persons were injured tonight when a ten-car express train of the Broadway-Seventh-avenue line ran into the bumper at the terminal at

MRS. KENNEDY TODAY IN

Investigation Taking of Test List of Witnesses

(Continued from First Page)

to shed some light on the mysterious disappearance of a number of days ago. Although detectives armed with subpoenas for his appearance before grand jury have been searching for him since last Saturday.

Assistant Chief Murchison yesterday told Capt. Cline that he is in Tucson on his way to the city and there checked over a list of witnesses in that city who probably be called before the jury.

Yesterday afternoon was spent over the latter's report running from Douglas a number of days ago. Murchison goes before grand jury he will be armed with report, statements from the Murchison and maps of the country over which Mrs. McPherson says she fled from her kidnappers.

Dist. Atty. Keyes also has grand jury subpoenas served on O. Barnard, Culver City police officer, Mrs. Barnard, Mr. and Mrs. Erik and Mrs. Way, all of Culver City. All of the Culver City police informed the authorities the day after Mrs. McPherson's disappearance that they had seen her in an automobile through their city. At the time it was noted that they were mistaken. They will be asked to tell their story of what they saw to the grand jury.

Detectives from the District Attorney's office yesterday continued search put under way several days ago for Ormiston, the missing radio operator of Angelus Temple, who, after having once been questioned by the authorities during the first few days of the investigation, disappeared from sight. Since then a number of suspicious circumstances surrounding his activities and whereabouts during the period when Mrs. McPherson says she was held by kidnappers before the

World Bantamweight Champ to Sign Up Friday

CHICAGO, July 12. (Exclusive)—When something unexpected happens at the moment, Bud Taylor of Terre Haute, Ind., and Charlie Phil Rosenberg will meet for the world's bantamweight championship at the Cubs' Park next month.

Eddie Long, manager of Taylor, notified promoter Jim Mullin over the long-distance telephone from New York that Rosenberg will be in Chicago on Friday or Saturday to sign up for the fight.

When promoter Mullin was in New York last week he refused to sign Rosenberg's exorbitant demands. Mullin stated flatly he would give the champion a fee of \$10,000 or 37 1/2 per cent of the receipts. Rosenberg wanted the privilege of taking the guarantee or percentage.

The local promoter refused to grant and left New York after telling managers of both fighters he will give 50 per cent of the receipts for the championship fight and it was up to them to arrange the division of the prize.

Apparently Long and Segal have reached a satisfactory agreement and Rosenberg was prepared to sign the contract. If Rosenberg works out as planned he will be compelled to sign the contract. If he fails to win, he will be obliged to sign the contract.

ROBBIE LAYS DOWN LAW TO PLAYERS

CHICAGO, July 12. (P)—Wilbert Robinson, manager of the Brooklyn Dodgers, delivered an ultimatum to his players today, warning them that if they do not play better baseball, he will discharge them.

LA JOLLA NET PLAY ON TODAY

Annual Southern Tennis Tournament Opens With-out Usual Stars

Two hundred tennis stars of Southern California will swing into action this morning when the tenth annual La Jolla net championships open on the La Jolla playground courts. Play will last four days. Many of the leaders of the South are among the missing on the entry lists of the various events. The first match is at 8 o'clock.

Mrs. William Henry, the best of the Southern racketeers, and winner of the women's singles and doubles, and mixed doubles championships of La Jolla last season, automatically defends her titles with the announcement of her withdrawal from the annual event. Among others to withdraw from the tourney are Norval Craig, 1925 men's champion; Johnny Hoeg, Howe Hancock, Harold Godshall and Arthur McDougall, a group of mighty court warriors.

COLIMA AND WILLIS CLASH

Scrappers Primed for Rematch Fistic Battle in Vernon Coliseum Ring Tonight

BY KAY OWE

Bert Colima and Cowboy Jack Willis are slated for their famous rematch at Vernon tonight, where they clash in the ten-round main event.

Just two weeks ago these two mid-dleweights, evenly matched to a pound, fought one of the most sensational battles the Doyle arena has sheltered since the Ben-Hur fight of a year ago.

Colima, after being knocked down four times, was counted out in the fifth round, while the platform boards were still creaking due to the hectic encounter that had taken place.

Their rematch figures in every way to be a greater duel than the first fight. Although Willis scored the kayo he is not altogether sure that he can repeat in as quick time as before.

In the first fight Colima was over-confident. He figured to win rather easily over the newcomer, whose best feat prior had been to stop Joe Roche, outpoint Mickey Rockson and draw with Lefty Cooper.

The Mexican believed he could dazzle Willis with left hands and knock him out afterward, but Willis refused to be dazzled. He took all that the Whittier Pride could put on a boxing glove, kept his feet, kept coming in and at every opening socked Colima to the canvas as regularly as he hit him.

Colima was floored twice in the second round, the bell saving him from a third.

ENGLISH SOCCER STAR AFTER COACHING JOB

H. Butterworth, who coached the Swedish soccer football team for the 1920 Olympic games, is in Los Angeles and likely will settle here if he can line up a coaching job. He has played professionally with many of the leading English soccer teams and before taking over the Swedish candidates was coach at the University of Holland.

JOCKEY JOHNSON TO RIDE BAGENBAGGAGE

CHICAGO, July 12. (P)—Jockey Albert Johnson, who rode Bubbling Over to victory in the Kentucky Derby, will be astride Bagenbaggage in the \$100,000 American Derby here, the 31st inst. at the new Washington Park race track.

SHERMAN COPS RACE

NEW YORK, July 12. (P)—Sherman captured the Fishkill Handicap, a mile and seventy yards, the feature at Empire City today, in 1m. 45 2-5s., with Millwick second and King Jimmy third.

RING VETERANS TURN BACK CLOCK TO PUNCH AGAIN AND PUNCH CLOCK TO EAT AGAIN

NEW YORK, July 12. (Exclusive)—The path of glory leads but to the stage. Twenty-seven years ago Jim Jeffries and Tom Sharkey, both young and virile, slugged each other around for twenty-five rounds in a prize fight ring in Coney Island. This afternoon these same men, both bald and 81 years old, again pummeled each other and also punched the Loew vaudeville time clock. Jeff wore purple tights and Sharkey was in a green outfit, revealing his great tattooed chest.

Introducing the two battered war heroes of the ring was Tom O'Brien, who promoted the famous Coney Island fight in 1890. Johnny Dundee, once featherweight champion of the world, served as referee, and Jeffries and Sharkey re-enacted their old fight for Loew's customers. The act will tour the country when it leaves here.

SEALS FACE STARS TODAY

Nick Williams, New San Francisco Pilot, Leads Club Against Hollywood at Wrigley Field

Nick Williams, the Mopse who is supposed to lead the San Francisco ball team out of the wilderness of defeat, comes to town today, his trained Seals opposing Oscar Vitt's Hollywood club at Wrigley Field. The first tilt of the seven game series is scheduled for 2:45 o'clock at Mr. Wrigley's apple orchard this afternoon.

Williams, who has been managing the Logan team in the Utah-Idaho League while also keeping an eagle eye out as a San Francisco scout, took over the reins of the Bay City club last week when Bert Ellison gave up the ghost suddenly.

Williams is well known on the Coast and has already in a d d himself popular with San Francisco fans by injecting some new pepper into the none-too-frisky Seals. His team got three out of the seven games in the Seattle series last week, starting off as if it were going to thump the Injuns about seven in a row.

One of the most colorful players in the history of Pacific Coast baseball is now on the Seal roster. That's Walter Maltz, eccentric southpaw and comedian. Walter, who is sometimes called "Duster," and has also been known to answer when hailed as "Nuttie," will probably pitch two games for the Seals this week. Manager Williams may use him tomorrow or Thursday and then again on Sunday.

The Seals are only three games behind the falling Stars, and unless Vitt's boys bustle to victory by languishing in the cellar at the close of the week.

COMFORT AND MODESTY HANG IN BALANCE AS MISS EDERLE WORRIES OVER BATHING SUIT

NEW YORK, July 12. (Exclusive)—The problem that was giving Gertrude Ederle more worry than any other when this correspondent last saw her in Cape Gris Nez on the French coast of the English Channel, was the eternal feminine problem of what to wear for effect a perfect union of two highly desirable but utterly incompatible qualities in her costume.

Gertrude Ederle, the famous swimmer, was in her element in the water, but she was also in her element in the land, where she was wearing a bathing suit that was both comfortable and modest.

Gertrude Ederle, the famous swimmer, was in her element in the water, but she was also in her element in the land, where she was wearing a bathing suit that was both comfortable and modest.

This Car and your next---

We think of both when we sell you a Don Lee used car. All of our 20 years' experience goes into selling only the sort of used cars that make us friends.

That is the way we have built a used car business of more than \$2,000,000 a year.

That is why any Don Lee used car is a safe investment.

FRANCE AND BRITAIN SIGN AGREEMENT ON WAR DEBT

Terms Provide for Payments Each Year Which Will Reach Sum of 12,500,000 Pounds

LONDON, July 12. (AP)—An agreement was signed today for the funding of the French war debt to Great Britain after a conference of a single hour between Winston Churchill, Chancellor of the British Exchequer, and Joseph Caillaux, French Minister of Finance, and a subsequent discussion with treasury officials to draft the terms of the agreement. These will not be divulged until tomorrow.

Since the agreement already has been ratified by the House he considers it improbable, however, that the Senate would consent to any material modifying amendments.

It is the view of administration officials that if France fails to ratify the settlement she will be in a less favorable position since the United States through its loans holds a demand note on the French government payable in cash while the debt agreement would allow payment over a period of sixty-two years.

The American government has received no communication, official or otherwise, from French authorities with regard to the debt, it was stated today.

Chairman Borah of the Senate Foreign Relations Committee, commenting on the demonstration of French war veterans in Paris yesterday against the settlement said today it was his judgment "that the veterans have cause to protest but not against the taxpayers of the United States."

He expressed the opinion any move to provide more liberal terms for France would meet with material opposition, that if a revision were deemed advisable it might be better to reject the settlement and start funding negotiations all over again, and that one of the effects of yesterday's demonstration would be to increase the difficulties of obtaining Senate ratification.

Declaring that France is "now the most prosperous nation in Europe," that the settlement amounts to little less than to cancel the debt of France's debt, and that "the trouble with France is that they refuse to pay taxes," Senator Borah said that France is paying more than would be required to meet American debt installments to break a pledge to give Syrians their independence.

The United States hasn't sufficient money," he added, "to save France under her present domestic policies and her imperial policy toward Syria."

Secretary Mellon, in stressing his contention that any modification of the debt settlement would have to be effected through amendment of the bill of ratification, now pending in the Senate, did not develop how he thought France could make an appeal to Congress for more lenient terms, if she so desired.

The view generally accepted here, however, is that there would be no formal representations, but that any members of Congress inclined to make changes would be guided by what they learned, through the press and otherwise, as to what the French government wanted.

POSTPONEMENT ALLOWED
France is also granted a transfer clause whereby, in the event of her large payment to England endangering the stability of the franc, the annual payment will be postponed.

Another point which the French experts consider more advantageous than the Franco-American settlement is that under the new agreement there is no possibility in any circumstances of the Anglo-French funding settlement becoming commercialized. The agreement provides that none of the French bonds may be placed in the open market or negotiated, as authorized by the American settlement.

Should France's incapacity to pay make any future revision necessary, it is understood that the principle will be maintained, that the amounts paid to Great Britain must be proportionate to those paid to the United States.

DEBT TO AMERICA UP TO CONGRESS
WASHINGTON, July 12. (AP)—The French debt settlement, in the opinion of Secretary Mellon, is out of the hands of the American Debt Commission, and if France wants more lenient terms it must lay its case before Congress.

BOTH SHIPS IN CRASH DECLARED AT FAULT
SAN FRANCISCO, July 12. (AP)—The Union Oil Company's tanker *Lynman* Stewart and the Luckenbach Steamship Company's freighter *Walter A. Luckenbach* equally were at fault when the vessels collided in the Golden Gate during a heavy fog on October 7, 1922. The Stewart, out of control and sinking, finally went on the rocks off Fort Point and became a total loss.

The United States Court of Appeals ruling in upholding a ruling of the District Court.

SCOTT MAY CHEAT NOOSE
Brother Enters Plea of Guilty in Murder of Clerk Whose Death Brought Gallows Sentence
CHICAGO, July 12. (AP)—Russell Scott, former wealthy Canadian financier, whose sensational trial for the murder of a Chicago drug clerk in a robbery more than two years ago, resulted in a sentence to death, may yet escape the gallows. Robert Scott, brother of the condemned man, who was a participant in the robbery, today entered a plea of guilty to having murdered Joseph Maurer, the clerk for whose death Russell was sentenced.

Three hours before he was to hang last summer Russell was saved from the gallows by a midnight telegram from Detroit, to Gov. Small, purporting to be the confession of Robert that he was responsible for the killing. The telegram was a hoax, and Russell was again held for hanging.

COMMITTED TO ASYLUM
A month later, he was snatched from the palls for a second time by a midnight plea for a sanity hearing. A few weeks later a jury declared him insane and committed him to the Chester Asylum, whence he was brought for a new hearing last month. At the last hearing he was found sane and sentenced to hang October 18, next.

While Russell was in Chester his brother Robert, who had been sought throughout the country since the night of the murder, was found in San Quentin penitentiary, California, and returned here to face the murder charge.

Judge William N. Gemmill declared Robert's plea placed a grave responsibility on the state.

"STAR" SOLD TO PRESENT CHIEFS

Kansas City Newspaper Bid in for \$11,000,000

Irwin Kirkwood Heads Group to Take Over Property

Sale Proceeds to Establish Art Foundation

KANSAS CITY, July 9. (AP)—Sale of the Kansas City Star and Times to the present management, for years associated with Col. William Rockhill Nelson, founder of the newspapers, was announced tonight by the trustees of the William Rockhill Nelson Trust.

The successful bid for the properties was submitted by a group headed by Irwin Kirkwood, present editor of the Star and son-in-law of Mr. Nelson, and A. P. Roemer, for years general manager of the newspapers. The purchase price was \$11,000,000.

Seven other bids had been received by the trustees.

The amounts offered by the unsuccessful bidders were not announced by the trustees. The Nelson will provide for the sale of the newspapers within two years after the death of his daughter, Laura Nelson Kirkwood, to the highest and best bidder. Mrs. Kirkwood died several months ago.

Under Mrs. Nelson's will his entire estate is to be used for an art foundation for the people of Kansas City. The statement of the trustees follows:

SALE CONDITIONS
The university trustees make the announcement that proposal No. 4 for the purchase of the newspaper properties owned by the William Rockhill Nelson estate, made by Irwin A. Kirkwood and accepted by the trustees, is to be used for an art foundation for the people of Kansas City. The statement of the trustees follows:

The price is \$11,000,000, the purchaser assuming all current liabilities and accounts payable, all prepaid subscriptions and suits for libel, personal injury and all others arising from the operation of the newspapers and all other assets of the Nelson estate, including the real estate occupied by the Star building but not the ground south thereof.

The price is \$11,000,000, the purchaser assuming all current liabilities and accounts payable, all prepaid subscriptions and suits for libel, personal injury and all others arising from the operation of the newspapers and all other assets of the Nelson estate, including the real estate occupied by the Star building but not the ground south thereof.

OTHER BIDDERS
Prior to the announcement of the trustees, J. C. Nichols, Herbert V. Jones and William Volker, Kansas City business men, had conferred with two members of the board of university trustees who had named them under the terms of the Nelson will.

An announcement by Ernest R. Lindley, chancellor of the University of Kansas and president of the board, said that the negotiations conducted by the trustees had been approved. Other members of the board are President Stratton D. Brooks of the University of Missouri and President William B. Bizzell of the University of Oklahoma. President Bizzell was not present but was reached by long-distance telephone.

The trustees had been in session almost continuously since last Friday, receiving offers and conferring with prospective purchasers. Those known to have submitted bids in addition to the Star organization are: W. S. Dickey, owner and editor of the Kansas City Journal-Post; Louis L. Vest, publisher of the publisher, the New London Ship & Engine Co.

Frank E. Gannett, publisher of the Rochester (N. Y.) Times-Union and other newspapers.

Clyde M. Reed, former chairman of the Kansas Public Utilities Commission.

SUBMARINE BUILT FOR PERU TAKES TO WATER
NEW LONDON (ON.) July 12. (AP)—Slipping gracefully into the water, the submarine R-1, built for the Peruvian government, was launched today from the Groton yards of its builders, the New London Ship & Engine Co.

DUCKS MAY BE SOUTH BOUND
KELENA (Mont.) July 12. (Exchange)—A few mornings ago a flock of ducks flew over this city. If the birds have begun their migration to the south, the prediction of "no more ducks" is verified, witnesses said. The direction of the birds' flight, however, could not be determined.

VILLE DE PARIS
SEVENTH AT OLIVE
B. H. DYAS CO.

Tuesday Continues

Sale of New Imported Laces—
59c—79c Yard!

A SALE timed for Mid-summer when laces in every form are all-important to women who sew. A Sale resulting from the most exceptional savings in the purchase of these two low-priced groups!

Tuesday More Sample Bags at Manufacturer's Prices: \$3.50 to \$12.50

For Tuesday—75 of these lovely bags—distinctive, entirely new, every one different!

A sale continuing for Tuesday for those women who have not already shared in these savings! At much less than regular prices, there are pouches and envelopes, of leathers and silks... in new shades, black and white... for afternoon and tailored use!

AT THE VILLE—FIRST FLOOR

Shattered Hulk of Pleasure Craft Una-C Reveals Cause of Blast

A Short Piece of Manila Mooring Line Twisted About the Port Propeller was responsible for the explosion aboard Hugh G. Chaffee's motor yacht Una-C at Avalon the 4th inst., examination of the shattered hulk of the pleasure craft revealed yesterday when it was raised in Lubber's Cove and brought to Los Angeles Harbor. The wreck was located last Friday in thirty fathoms of water off Abalone Point. Photo at left (above) shows remains of motor yacht; middle, berth in which the body of Doris Riggins was found Saturday by a diver; right, another view of the wreck. (Times photos.)

Speaker of the House, Representative Nicholas Longworth is shown above with Mrs. Longworth (Princess Alice) as they appeared following the recent adjournment of Congress. Speaker Longworth is said to be the best dressed man in Congress. (P. & A. photo.)

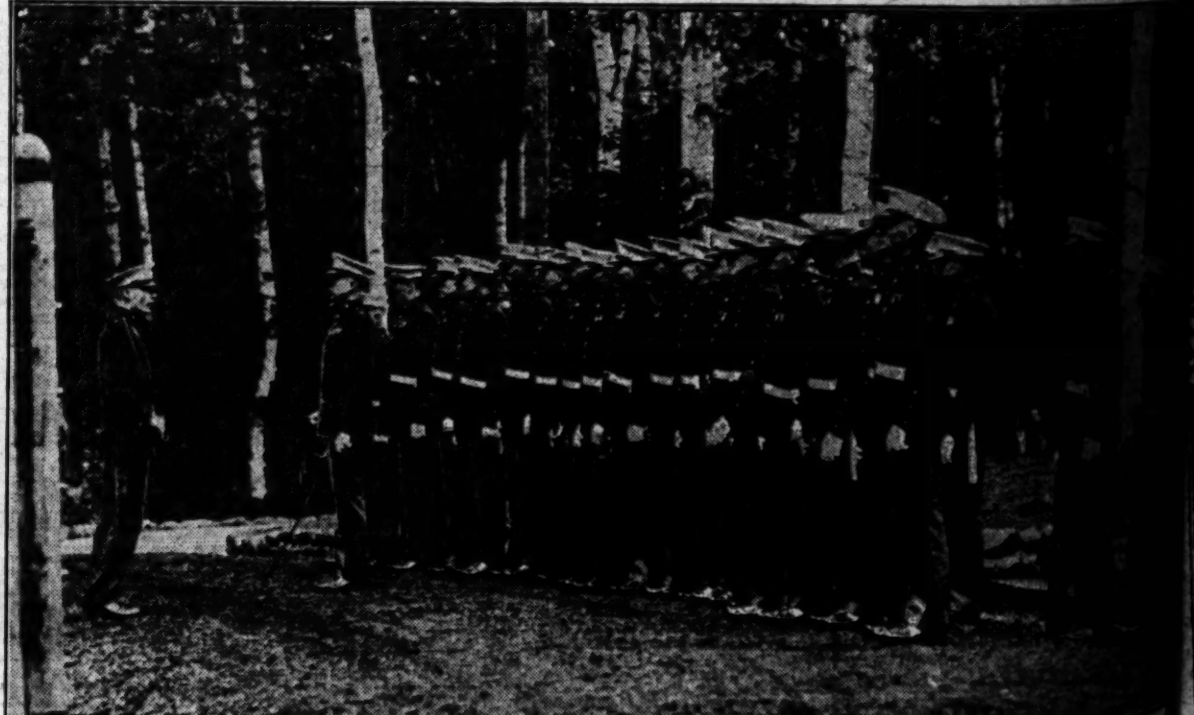

Queen Bee and Her Attendants, numbering several thousands, invaded the lobby of the U. S. Grant Hotel at San Diego the other day and took possession. The swarm finally left the lobby and parked on the spotlight of a taxi outside. Photo shows the insects swarming over the unfortunate vehicle. (P. & A. photo.)

Most Coveted Trophy of Its Kind, the Pálín Trophy, was awarded to the Los Angeles Advertising Club by the directors of the Pacific Coast Advertising Convention. Photo shows Irving Smith (left) retiring president of the chapter, and Donald K. Thomas, executive secretary, with the big cup. (P. & A. photo.)

Queen of Beauty at Havana, Cuba, the charming Senorita Raquel Albert (above), plans to visit the United States at an early date. She is now in Paris where she is being feted and entertained by adoring Parisians. (Herbert Photos, Inc.)

The President's Marine Guard in Summer Camp is shown above at the entrance to White Pine Camp, in the heart of the Adirondacks. This company of picked sea soldiers patrols the grounds and guards the nation's Chief Executive while he fishes and hikes on the big estate. (P. & A. photo.)

All Mussed Up in Subway Jam in New York, resulting from the strike of motormen and switchmen, this young lady is trying to make the best of a bad situation. Note the hat, smashed and torn, which she is carrying in her left hand. (P. & A. photo.)

OUR HISTORY IN PICTURES

454

Resources and Advantages.

by J. CARROLL MANSFIELD

IN THE CIVIL WAR THE NORTH NOT ONLY OUTNUMBERED THE SOUTH BUT POSSESSED FAR GREATER WEALTH AND MATERIAL RESOURCES. THE SOUTHERNERS BELIEVING THAT "COTTON IS KING" HAD DEVOTED MOST OF THEIR EFFORTS TO THE PRODUCTION OF THAT STAPLE AND NEGLECTED THE INDUSTRIES THAT A NATION MUST HAVE TO BE SELF-SUSTAINING.

THE NORTH HAD NEARLY ALL THE MILLS AND FOUNDRIES, MORE RAILROADS, ALL THE VAST RESOURCES OF THE PUBLIC LANDS, AND HER PORTS WERE OPEN TO THE TRADE OF THE WORLD. THE UNION ALSO BUILT UP THE INDUSTRIES OF THE NATION WHILE IT WAS FIGHTING THE CONFEDERACY. THE SOUTH, WHEN HER FOREIGN TRADE WAS CUT OFF BY THE UNION BLOCKADE, SOON FELT THE PINCH OF PRIVATION.

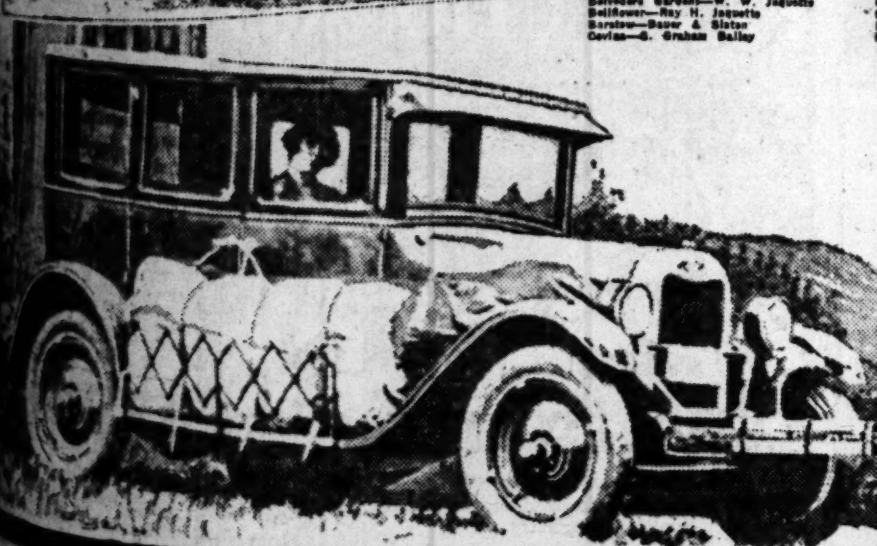

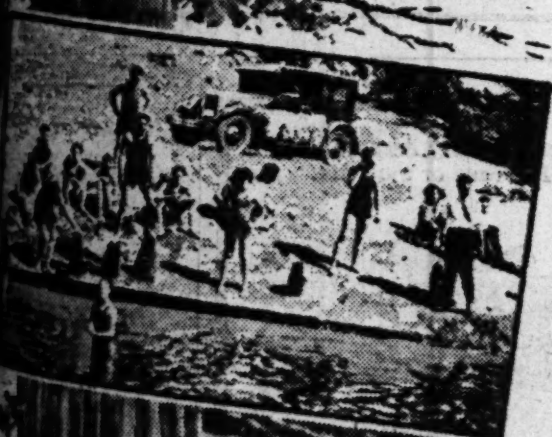

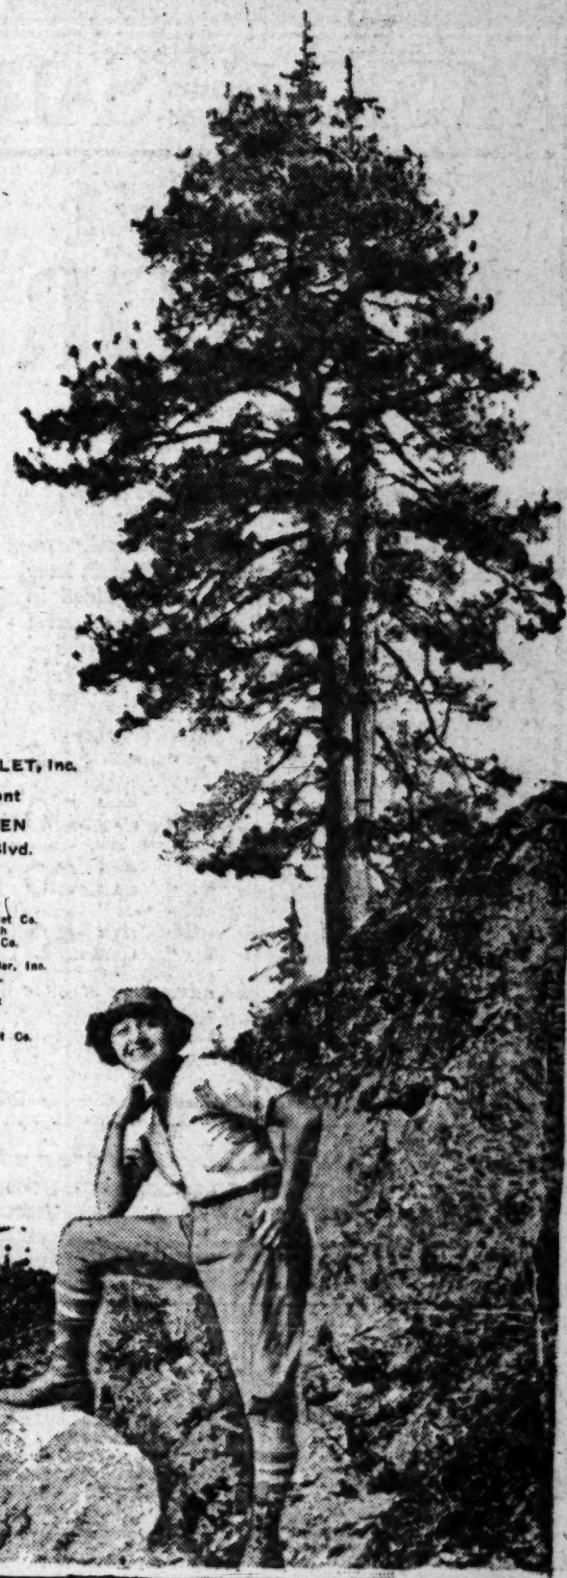

THERE WERE, HOWEVER, SOME IMPORTANT ADVANTAGES ON THE SIDE OF THE CONFEDERACY. THE SOUTHERNERS WERE MORE ACCUSTOMED TO OUTDOOR LIFE AND THE USE OF FIREARMS AND WERE MORE QUICKLY DRILLED INTO VETERANS. THEY WERE FIGHTING ON THEIR OWN SOIL AND, KNOWING THE TERRITORY, COULD MOVE SWIFTLY FROM PLACE TO PLACE.

MOST OF THE MINOR OFFICERS OF THE CONFEDERATE ARMY CAME FROM THE OLD CLASS. MEN WHO WERE USED TO COMMAND, AND MANY OF THE REGULAR ARMY HAD SEEN SERVICE IN THE MEXICAN WAR.

These daily history strips make a unique pictorial history of America. Hundreds are clipping them daily and pasting them in scrapbooks.

Deauville!

(L'ANCIEN AVEC LE NOUVEAU)

Beach Club

A Club for Everyone Who Loves the Surf

—and who desires the most complete and luxurious facilities for all social and athletic activities

DEAUVILLE! World-famed European watering place... where the facilities for seashore diversion have, through the years, reached a perfection of smartness and refinement which only the gay artistry of France could possibly attain.

Bring Deauville to America. Place it on the shores of the blue Pacific. Keep all its old world refinement, all its smartness and gaiety. But add the conveniences, the spaciousness, the luxury of the finest American seashore clubs and you have what is proposed for the...

DEAUVILLE BEACH CLUB... on beautiful Santa Monica Bay!

Just north of the Santa Monica pier this club is designed to be unique in the advantages of its location... in the charm of its architecture... in the completeness of its appointments and service.

It is intended as a club for a large and representative membership... men and women who will appreciate the opportunity of enjoying at a moderate outlay, California's superb seashore life at its finest.

The Club, through the Deauville Holding Co. will, according to the plans, provide for its membership the largest beach area of any club in California. It will not be leased, as the Deauville Holding Co. owns outright the beach and Palisades property on which the

club will be built. The main building is designed to be a height limit structure.

From the City side you will enter over a bridge leading from the top of the Palisades on Ocean Avenue directly across to the fifth floor... a feature of striking originality and one which will relieve the members from all traffic congestion and annoyance on the beach-level speedway.

Among the other features planned are the large main dining room on the third floor; a special dining room on the top floor, several stories above the level of the top of the Palisades, thus providing a magnificent outlook over the entire bay district; private dining rooms, gymnasium, lounges for men and women, liberal locker provision, bridges from the second floor connecting with the beach, 500 guest rooms, and the largest outdoor salt-water swimming pool in Southern California, enclosed within a huge court formed by the club buildings.

The Deauville Beach Club is sponsored by men well-known in Southern California business and professional life. It is making a preliminary offering of its \$200 FOUNDER LIFE MEMBERSHIPS at \$100. The number in this offering is limited; when they are exhausted the regular price of \$200 will prevail for these memberships. All memberships are transferable in accordance with the by-laws of the club, free from all liability and exempt from dues except a nominal locker fee.

These are the moderate terms on which, if you act promptly, you can secure seashore facilities that are second to none. Even though your income may be limited, you may now enjoy in the fullest and finest way, California's most glorious recreation... the pastimes of her sands and surf!

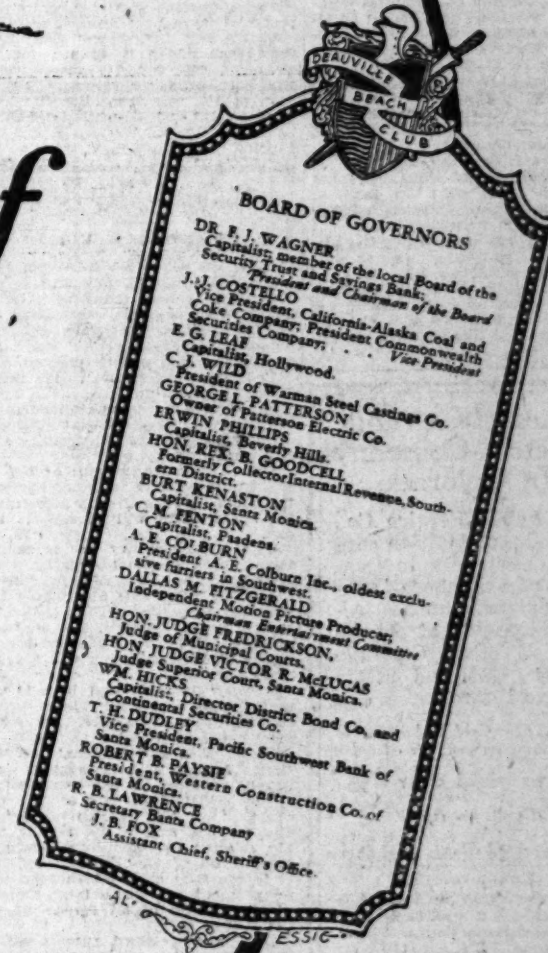

Members of such clubs as the Wilshire Country Club, Los Angeles Country Club, Jonathan Club, California Club, University Club, Anhandale Country Club, and organizations of similar standing are eligible to membership immediately in the Deauville Beach Club, without action by the membership committee. Simply fill out the following, enclose your check and mail.

COPPER MARKET CONTINUES DULL

Prices Rule Under 14 Cents on Light Sales

Export Association Slow to Get Under Way

Expect Operations to Start During Autumn

BY CHARLES F. WILLIS
 (Editor, The Mining Journal)

Copper continues to be quiet and dull with nothing to move the market to any appreciable extent. While the price being held by a number of the copper producers is 14 cents, there seems to be plenty of the metal available at 1-8-cent less and little willingness to buy even at the lower figure.

Those who are following the situation with a hope of increasing copper price are rather disappointed. These facts, which it now looks as though the new Copper Export Trading Company will not get into active operation until the fall, this undoubtedly means that we cannot expect much better copper prices until that time at least and that, if this organization does work, a higher price of 15-1-4 cents is possible.

This is, of course, optimistically anticipating the force and effect of the work of the Copper Export Company and its full functioning cannot be expected in the beginning of its work. Some predict, however, a higher metal price even without the influence of organized selling abroad.

WALKER HOPEFUL
 George L. Walker writes regarding the Copper Export Trading Company: "There is a great deal of curiosity here concerning the plans of the Copper Export Trading Company. These plans, which are to be put into operation before fall are expected to bring about a gradual but permanent improvement in the copper situation. Annoyance is expressed in some quarters at the announced intention of the producers to sell only to consumers, discontinuing sales to dealers. It will restrict the speculative activities, in which many on this side like to indulge, and for a time it will undoubtedly inconvenience the many small consumers who always have obtained their supplies either from dealers or in the speculative market."

Despite this annoyance, the general feeling is that the big producing interests who have associated themselves in the Copper Export Trading Company are working out plans which will result in a considerable increase in the consumption of copper by European countries. As it is certain that this cannot be effected in any other way than by stimulating the business activities of copper and brass manufacturers, the new association is welcomed and there is a quite general disposition to co-operate with it.

EXPANSION EXPECTED
 "Copper and brass manufacturers confidently expect a large expansion in the demand for their products. The cheapness of copper has advertised it the world over, and there is a growing disposition to use this metal and brass in preference to other materials for a great variety of purposes. One rumor is that the Copper Export Trading Company will assist European manufacturers to obtain credit to finance their operations. This has created a favorable impression, many copper and brass manufacturers being cramped to some extent by scarcity of working capital. This is pronouncedly the case in Germany, where lack of credit seems to be the only obstacle to the use of much larger consumption of copper. Manufacturers feel that the Copper Export Trading Company is to be an authoritative and helpful organization to which they can go with their troubles and obtain relief."

Copper exports this year are not stacking up to expectations. France is averaging about 1000 tons a month more than last year. Italy about 700 tons per month more, but England is taking about 2200 tons less per month and Germany is far below last year's average, with an average of 1907 tons as against 16,000 tons during 1925.

THE INVESTOR

Motion Picture Capital Corporation Has Virtual Monopoly in Its Field—Growth Has Been Unusually Rapid—Its 6 Per Cent Notes in Investment Class

(Copyright, 1926, by New York Evening Post, Inc.)
 NEW YORK, July 12.—Motion Picture Capital Corporation holds a rather unique position in the motion picture industry. It might really be said to be the banker for the independent producers and distributors. In this line it has virtually a monopoly.

Somewhat of a business romance is connected with its formation in 1923. Frank R. Wilson, president, who was director of publicity for the Liberty Loan drives in the World War, was impressed with the inability of many of the independent producers to procure financial assistance anywhere near a businesslike basis. This gave him the idea of forming the company.

He interested Theodore Schuba, who is a director of the Chase Securities Corporation, Magma Copper, Texas-Gulf Sulphur and other companies, and Devereux Milburn, one of the largest stockholders in the Southern Railway and a director in a number of other enterprises. These two men advanced the initial capital requirements of the company and played an important part in early organization developments.

The stock, particularly the common, is, of course, speculative. The bonds, however, in view of the business methods employed and the type of management, appear to be safely within the investment class. Net quick assets of the company are more than twice the principal amount of the bonds, and cash and reserves amount to approximately one-half the principal amount.

All loans are passed on by the executive committee, whose members are familiar both with the banking and the motion picture business. The security behind the loans made include the guarantee of both the producer and the distributor of the picture, and in virtually every instance may be rehypothecated at the banks for 80 per cent of their principal amounts. In addition title to the negative of the picture under production is also received as security.

Adequate insurance is carried to protect the company through death of the actors or loss or damage to the negatives. All loans are self-liquidating, in that the distributor is usually required to pay direct to the company's bankers 65 per cent of all gross revenues received until the loan is fully repaid.

Its banking affiliations include some of the most important institutions in the country. The Chase National Bank, Equitable Trust Company, Guaranty Trust Company, Bank of Italy in Los Angeles, Central Union Trust Company and others extend liberal credit lines to the company. Earnings have shown a rapid increase since the company was first organized. It is officially estimated that net for the current year, after reserves for losses, taxes and interest, will be approximately \$750,000. Earnings available for interest are expected to be about seven times the requirements.

suburbs and in San Diego were authorized at the last weekly meeting of the Metropolitan Life Insurance Company real estate committee. The loans were placed through the Mortgage Guaranty Company of Los Angeles. Loans on bond and mortgage, authorized at the same meeting amounted to \$4,238,150. Of this amount \$3,644,860 were city loans and \$593,290 were farm loans, which latter were scattered in fourteen States.

Spring Pig Crop Reported Less Than Year Ago

Spring pig crops in the United States were 12 per cent smaller in 1925 than in 1924, according to the semiannual pig survey of the Department of Agriculture, made through the rural carriers of the Postoffice Department. The total estimated spring pig crop in the United States in 1925 was about 54,000,000 head, an increase of 39 per cent in sows bred to farrow this fall over the number farrowed in the fall of 1925, is reported.

There was an increase of 1.7 per cent in the number of sows farrowed this spring over the spring of 1925, but the average number of pigs saved per litter was smaller this year with the result of a decrease in pigs saved. All groups of States except the North Central, West and the Far West, showed a decrease in pigs saved this year than last. The largest decrease was shown in the North Atlantic States. A large increase in breeding for fall is shown by all groups, ranging from 20.3 per cent in the North Atlantic to 63.8 per cent in the Far West.

GUIDING INSURANCE BUYERS

BY GRIFFIN M. LOVELACE
 Professor of Insurance, New York University

This is one of a series of articles appearing in The Times three times a week, dealing with all phases of insurance.

XLVII.—EXTENDED INSURANCE

Some years ago a judge residing in Philadelphia was advised to take a long journey for rest and recuperation. The condition of his health had reached a danger point, so he heeded his physician's counsel and began to make preparations for a trip around the world.

Many hours were spent with his secretary noting the things that would require attention during his long absence. Among the various items were the premiums on a number of different policies. His automobile insurance was to be canceled. His burglary and fire insurance were to be arranged so as to cover an unoccupied residence. He ordered payment to be made of all insurance premiums of various kinds that would fall due while he was away, including premiums on several life insurance policies. (A better plan would have been to pay them in advance.)

All preparations having been completed, the judge and his wife and daughter sailed from New York for the Orient via the Panama Canal and San Francisco. They were gone a year—a year of mingled pleasure and anxiety, for the judge's health did not seem to improve greatly.

POLICY ALLOWED TO LAPSE

Upon their return to Philadelphia one of the first things he did was to go to his secretary and review his business affairs of the past twelve months. As they checked up various things, the judge was pleased to find that all seemed to be in good order, until finally the secretary told him that a life insurance policy for \$25,000 had been allowed to lapse.

The company had sent several premium notices, but the secretary had followed his employer's unwise practice of taking the thirty days of grace, in which payment could be made, and had gone away on a vacation to forget the end of the period, forgetting that this premium was yet to be paid. Upon his return, he had vainly made every effort to have it accepted.

Consider Water

an exceptionally sound basis for investment. Water is necessary to every form of life.

A company serving water is favored by the fact that raw material is available without cost; income is negligibly affected by depressions; property depreciation is slow, and methods of handling the product are not subject to expensive changes.

In addition to these advantages possessed by water companies in general, the East Bay Water Company serves a California population of more than 400,000 in Oakland, Berkeley, Alameda, Piedmont, San Leandro, Richmond, and other communities without competition and no successful competition is possible.

The sale value of the company's property is greater than all bonded and other indebtedness and the par value of all stocks.

Such a strong position emphasizes the safety and attractiveness of the

A Contrast in Yields
The present bond market, which is characterized by high prices and low yields, promises still further recessions in interest rates. Consequently any really sound securities which are obtainable now on a high-yield basis, are extremely desirable.

We are still able to fill orders for certain high-grade public utility bonds and stocks at prices to yield up to 7% or more. These are in striking contrast to the many utility securities now yielding 5% or less.

A list of our current offerings will be mailed upon request.

BANDITS ROB THREE BANKS HERE AND IN PASADENA

Gunmen Obtain \$5500 in Plunder; One Suspect Captured After Being Chased by Police

(Continued from First Page)

The latter declared he did not know the combination. The bandit, with a curse, threatened to shoot all three to spread fear down the street as he fled into the bank vault. The bandit, with a curse, threatened to shoot all three to spread fear down the street as he fled into the bank vault.

RECKLESS CHASE

The bandits fled to their auto, parked on Arden Boulevard a few feet from the bank just as Michael Perkins and Earl Lewis raced over from their flower shop near by in response to the bank alarm. They were halted in their dash for the bank car, however, when one of the gunmen turned and aimed at them. The bandit car refused to start and one of the bandits, gripping the shopping bag in one hand and money in the other, leaped out of the machine and cut across lots to Irving Boulevard.

Perkins raced after him. The bandit doubled back after taking a pot shot at the pursuer, darted back to Larchmont Boulevard and then fled down one back yard to another. By that time, however, Patrolmen Verdules and Luck of the Hollywood station had arrived and joined in the pursuit.

Through the efforts of L. G. Stuefer, the officers caught the suspect after Stuefer had routed him out of his garage at 631 North Larchmont Boulevard.

In the garage was found the paper shopping bag and nearly all the money which had been stuffed into it.

LEAPS FROM CAR

In the meantime the second bandit had succeeded in starting his car, but by that time Mr. De Graeme had leaped into his own machine, which had also been parked close to the bank, and gave pursuit. The bandit turned and fired at the bank manager. The pursuit swung through traffic for about four blocks, and then the bandit, realizing that he could not outdistance the manager, jumped from his car while it was still in motion and fled across a vacant lot.

The car he had driven crashed into another machine parked on North Cower street near Malrose, where it was found by police.

As detectives and deputy sheriffs were checking with the bank officers and employees for clues to the escaped bandit, they received another call that the Hallman Bank on West Pine street had been held up.

Two shabbily dressed men, one armed with a gun and the other carrying an ammonia bottle, entered the bank shortly after noon and held up T. D. Burney, teller, and Miss Emma Stevens, book-keeper. They were alone in the place, the manager, J. O. Hall, having stepped out for lunch.

One remained at the door on guard, but the other entered the teller's cage, scooped all the money into his pockets and hat, and then fled out of the front door into a rust-eaten silver parked outside.

WOMAN WITH BANDITS
They drove south on Third avenue and then turned into Venice Boulevard and became lost in the traffic.

Detailed descriptions of the bandits and finger prints were obtained by officers who raced to the bank in Venice Boulevard.

The robbery of the Lake-avenue branch bank in Pasadena occurred about 12:30 p.m. Four bandits in a sleek sedan of late design, accompanied by a woman, participated in this job.

Only one of the four men, however, appeared to be armed. He commanded the others. A. R. Brownell, cashier and manager, was alone in the bank, behind the teller's cage.

The leader of the bandit troupe held him at bay at the point of his gun while his companions ransacked the cash drawer. Then Mr. Brownell was forced to open the vault and the bandits forced a metal box and a value in the vault, but obtained nothing.

Their plunder from the cash drawer was estimated at about \$2500, however. As the bandits were about to depart, D. T. Groux of 1600 North Hill avenue, a customer, entered. He was locked in a closet.

Apparently the bandits were about to check pursuit the bandits slugged Mr. Brownell as they were leaving and left Mr. Groux in a dazed condition on the floor of the vault. His injuries are not serious, it was stated.

THREE SAN FRANCISCO
SUSPECTS HELD HERE

San Francisco authorities were notified by local police yesterday that three men are being held here on suspicion of complicity in robberies in that city.

At San Francisco, 22 years of age, confessed to taking part in the robbery of a drug store at Geary and Commercial streets, San Francisco, last May.

Police said, and he and James Cousins, 25, and Harry Knowles, 26, are suspected of having taken part in the robbery of Compton's cafe, Main and Ellis streets, according to Detective Lieutenants Hardy and Malina.

GUILTY PLEA ENTERED
IN MONEY ORDER CASE

Plea of guilty to passing \$4000 worth of bad money orders while postmistress at Camarillo, Santa Barbara county, was entered before United States Judge McCord yesterday by Mrs. Anna Elvidge and her date.

Sentence was set for the 31st day of August. The failure of the postal accounts was made by inspectors after Mrs. Elvidge had left the office, the evidence showed. She made a clean breast of admitting when interrogated by investigators.

FUNERAL FOR WIFE OF
ATTORNEY TOMORROW

Margaret M. McMahon, wife of John J. McMahon, attorney and for many years resident of Los Angeles, died yesterday at their home in Hollywood.

Mrs. McMahon leaves her husband, her father, mother and brother, and a daughter, Marguerite Catherine, 9 years of age. Funeral services will be conducted at the chapel of Reed Brothers, 721 West Washington street at 2 p.m. tomorrow.

POLO PLAYER'S GEMS
AND SERVANT MISSING

Eric Pedley, Southern California polo player, yesterday reported to the Sheriff's office that a Filipino servant has disappeared from his home in San Gabriel and that a check of the house has revealed the loss of \$6000 in jewelry.

A diamond and platinum bracelet, earrings and several diamond rings were listed by Pedley among the missing items. Capt. Townsend of the burglary squad is investigating the case.

HUNDRED TOURISTS
FROM CAPITAL DUE

More than 100 tourists from Washington, D. C., will arrive in Los Angeles on the 31st inst. as members of E. R. Rochester's annual thirty-nine-day tour of the West.

While here the visitors will be taken on sight-seeing trips through downtown Los Angeles, through the residential sections, to the film studios and the Hollywood Bowl, and will also make a steamship excursion to Catalina Island.

OPEN PARASOL DISPELS CLOUDS Old Sol Smiles His Warmest on Her

Helen Herr and Her Sunshade

By a "Times" Staff Correspondent

SANTA ANTONIO, July 12.—The way to tempt old Sol out from behind the misty clouds which have obscured him in such unreasonable fashion this year is to go right ahead carrying a sunshade, just as though one were not mistaking him in the least. Such is the theory Miss Helen Herr of Ocean Park is working on these days, and beach habits here claim that when she opens her Japanese parasol, the old boy gets scared, nine times out of ten, and dispels the clouds with his warmest sunbeams.

It's a novel idea, at that, letting a little sunshine in by getting under a parasol.

DISTRICTING
INDORSED BY
FOUR UNITS

Legion Council and Three
Chambers Join Active
Ranks in Movement

Three chambers of commerce and the Los Angeles County Inter-post Council of the American Legion yesterday joined the ranks of the organizations which are backing the proposed legislative reapportionment initiative movement, according to an announcement at headquarters of the All-Party Reapportionment Committee, 346 South Hill street, on the eve of a forty-eight-hour drive to obtain 10,000 signatures to the reapportionment petitions now in circulation.

All petitions must be signed and returned to the committee headquarters by tomorrow night, it was stated, in order to get the initiative on the November ballot.

The Hollywood, West Hollywood and Compton chambers of commerce were the commercial organizations which unanimously endorsed the reapportionment campaign.

Indorsement of the move to give Southern California just and legal representation in the United States was announced by M. B. Silberberg, an active leader in the reapportionment movement.

Reports reaching the All-Party Committee headquarters from Monterey and numerous other outlying communities of Los Angeles county were that the reapportionment petitions in circulation there were being signed by large numbers of citizens.

Dana Weller, attorney and member of the committee, headed a party of petition circulators which is to go into the county districts today, armed with the necessary signatures and Maj. P. B. Burnham led another party into the Santa Fe and Dominguez oil fields.

YOUTH SENTENCED TO
OPERATION ON BRAIN

Charged with twenty-two counts of larceny and burglary, Edward W. Sanders, 20 years of age, yesterday was placed on probation for two years by Judge Burnell on condition that the young man submit to a trepanning operation at the General Hospital. Sanders, it was shown, has been suffering from years from the effect of a fall from a tree when a small boy. Numerous doctors testified that an operation to remove pressure on the youth's skull might cure him of his wayward habits.

"FIDDLIN' JIM" SENTENCED

Arkansas Postmaster Breaks Down in Appeal for
Mercy on \$80,000 Money Order Theft

James S. Davidson, Fallville (Ark.) postmaster, whose card bore the sobriquet "Fiddlin' Jim," yesterday was sentenced to serve three years in Federal prison for theft of \$90,000 in money orders and forgery and passing of several thousand dollars worth in Los Angeles.

Davidson yesterday broke down before Judge McCormick after a twenty-minute fight for leniency and had to be carried from the courtroom in a hysterical condition.

The defendant's plea for mercy were based on the fact that he had nine children, a wife and a mother to support in Arkansas.

(Continued from First Page)

carry the banner in defense of California industries.

He then repeated his announced stand in favor of the Boulder Canyon dam bill and said he believed the bill, as amended and carrying with it the approval of the President, the Cabinet and the California delegation to Congress, would be enacted into law at the next session of the Congress.

The record of his vote on the Senate Committee on Irrigation and Reclamation will demonstrate his approval of the bill, he said.

BOUGHT IN CALIFORNIA

From his experience as a member of the Senate Committee on Naval Affairs, he stated that "so far as we know we do know—every significant nation to the disarmament treaty has observed the provisions of that treaty."

He then pointed out, nevertheless, that the United States fleet, a powerful weapon, was being maintained and equipped in accordance with the terms of the Constitution. The last naval appropriations bill, he declared, included \$20,000,000 for the purchase of new ships and other work, and that 60 per cent of the materials and supplies purchased by the government for the Pacific naval establishments were bought in California.

A recognition of the Permanent Court of International Justice by the passage of a resolution with carefully worded reservations, fully and guardedly every right and interest, legal, material and political, of the United States was adopted by the Senate. Mr. Shortridge continued:

"Without to any degree or in any way impairing our independent national sovereignty, involving ourselves in Old World political matters, we seek to substitute reason and justice for the sword in the settlement of international controversies."

"We seek to advance the holy cause of peace among the nations of the earth."

RIGHTS PROTECTED

He declared that the rights of America were amply protected by the reservations, so that this country could be drawn into no entangling alliance, before the bar, that we continued control over purely domestic matters, including immigration and the Monroe Doctrine.

"But if the court can prevent us from God bless it in its work," he said.

He invited the attention of his hearers to a long list of administrative accomplishments in which he has played a part, and which included ratification of treaties with Germany and other powers, adjusted compensation for World War veterans, and just pension increases for Civil War and Spanish-American veterans.

He also mentioned his work on the World War Veterans' Act, miners' relief law, introduced by him, and the pension law for World War veterans, and the pension law for World War veterans.

SOCIETY

BY JUANA NEAL LEVY

One of the attractively appointed events of the day will be the bridge tea, which Mrs. Mark Finley (Anna Judge) and her sister-in-law, Miss Mildred Finley, are entertaining this afternoon at the Los Angeles Country Club in honor of Mrs. Benjamin Charles (Alta Berry), a recent bride, and Miss Isabel Kierman of Champagne, Ill., who is the house guest of Mrs. Finley at her apartments in the Rex Arms, Wilshire Boulevard. The tea table will be effectively decorated with roses and ferns, a salmon pink and green color scheme being carried out. One hundred guests have been bidden.

Assisting the business will be Mrs. Bruce Hay Chapman, Mrs. Norman Chandler, Mrs. Frank Bennett, Mrs. Raymond Hunterberger, Mrs. Caleb Elliott, Mrs. Kenneth B. Le Marinel, Miss Ellen Andrews, Miss Violet Andrews, Miss Harriet Andrews, Miss Virginia Beardsley, Miss Mary Frances Milbank, Miss Dorothy Hurlbut and Miss Virginia Lee Martin.

Miss Kierman, who visited Mrs. Finley several years ago, made a host of friends then, and will be much entertained during her visit here.

Visiting Parents
Mrs. Caleb Elliott (Dorothy Stewart) of Hayti is enjoying a delightful visit with old friends, being the guest of her parents, Mr. and Mrs. William Lyman Stewart in Pasadena.

Wedding Date
Announcement of the wedding of Miss Julia Alice Coby, attractive daughter of Mrs. Coby, 2825 Highland avenue, and Irving R. Funk, was made at a beautifully appointed luncheon Tuesday, the 12th inst., when Mrs. Coby entertained at the Sunset Canyon Country Club in honor of her daughter. The news of the approaching wedding, which will take place the 24th inst. at 8:30 o'clock in the morning in the Little Church of the Flowers, was charmingly revealed. A ship of "matrimony" sailed on a sea of flowers and greenery with the bride and groom on tiny scrolls, and the place cards and favors were suit cases and tiny trunks.

Judge Frank Collier will officiate and Mrs. Coby will give her daughter in marriage.

Both Miss Coby and Mr. Funk are students at the University of California in Berkeley, the former being a member of the Kappa Delta sorority while Mr. Funk is a member of the Phi Kappa Phi.

Those included in the afternoon's entertainment were Mrs. John Martin, Mrs. Hubert Kierman, Mrs. W. W. Wollenburg, Mrs. Jack Owens, Mrs. A. E. Wetzel, Mrs. Rodney Taylor, Miss Grace Lyman, Mrs. John Chalmers, Mrs. Lelia Blanchard, Miss Eleanor Burns, Miss Jean Johnson, Miss Zaida Newlin, Miss Catherine Newcomer, Miss Marjorie Jean Church, Miss Lelia Jones, Miss Eleanor Glass, Miss Mary Kessler, Miss Lela McCord, Mrs. Lelia and Miss Florence Van Driver.

After Eastern View
Mr. and Mrs. Frank E. Geiger of South Ardmore avenue, who have been enjoying an extended vacation in Kentucky, Kansas City, Chicago, Des Moines and Denver, have returned home again.

Enjoyable Affair Planned
One of the enjoyable affairs of the week will be that of Thursday afternoon, the 15th inst., when a group of high-school girls entertain with a tea for their friends. The committee in charge of the affair includes Misses Henrietta Youill, Miss Virginia Lyon and Miss Marjorie Ramsey. Thirty guests have been bidden.

Birthday Party
A charming children's party was given Tuesday afternoon by Mr. and Mrs. H. B. Ploerke of Pasadena at the Oakley Club, Santa Monica Boulevard. The event celebrated the birthday anniversary of their small daughter, Elizabeth. The terrace was ablaze with summer blossoms and ferns and the place cards and favors were a "bit" of gifts. After luncheon the children enjoyed the playground.

For Visitors
A pretty appointed affair of recent date was the luncheon with which Mrs. Alma Hall entertained at her home, 1041 South Manhattan Place, in honor of Miss Felice Flamm of Houston, and Miss Frances Fernandez of Brownsville, Tex., covering the afternoon of the 12th inst. Games, readings and music were employed in the afternoon's enjoyment.

Returning Home
Mr. and Mrs. Charles Henry Thompson of 1001 Sunset Boulevard, who have been visiting at the Moana Hotel, Honolulu, and motoring to various points of interest in the Hawaiian Islands, called for home aboard the Cleveland, and are arriving in San Francisco today. They will motor for ten days en route to Los Angeles.

Wedding Cards
Invitations are being issued by Mr. and Mrs. Juan Zuluaga of 601 West Twenty-second street for the marriage of their daughter, Miss Maria del Carmen Zuluaga, to Hector Perreira, son of Mrs. Carmen Acosta Perreira and the late Manuel Perreira of Mexico City, the ceremony to take place tomorrow evening at St. Vincent's Cathedral, Figueroa at West Adams street, at 7 o'clock.

A reception and wedding supper at the home of the bride's parents will follow the ceremony, and after a honeymoon at Lake Arrowhead Mr. Perreira and his bride will return to Los Angeles.

Baby's Socks
Haven't you some of baby's winter stockings that are worn out at the knee from playing and are yet good in every other part? If so, just cut them off at the knee and crochet a shell stitch in a pale shade at the top for a finish. A summer's wear as socks is thus guaranteed.

Brittle Nails
If your fingernails are brittle and constantly breaking, try rubbing a little olive oil on and around them every night before retiring. It will strengthen them wonderfully.

MOTHERS AND THEIR CHILDREN

Let
PEP

VISITOR FROM MIDDLE WEST

She Shares Honors at Bridge Tea

Miss Isabel Kierman

NE of the charming visitors to Los Angeles this month is Miss Isabel Kierman of Champagne, Ill., who is the house guest of Mrs. Mark Finley (Anna Judge) and Miss Finley are entertaining at the Los Angeles Country Club, 100 guests being bidden.

Church Ceremony
The wedding of Miss Maria Hurst, daughter of Mrs. Charles W. Hurst of 1616 East Fortieth street, and Eugene W. Hilton, son of Mr. and Mrs. James W. Hilton of 300 West Fifth street, was celebrated at a charming ceremony in the Little Church of the Flowers, Glendale, at 7 o'clock Wednesday evening. Rev. George M. Steed of the Methodist Episcopal Church officiated.

The bride was given in white tulle, fashioned with a bouffant skirt edged with lace, and wore a veil of tulle crowned with a wreath of orange blossoms. She carried a shower bouquet of white roses and lilies of the valley. Attending while bride and groom were a group of bridesmaids of mixed flowers, Miss Gertrude Hilton, a sister of the bridegroom, wearing a gown of peach tulle and Miss Louise Calkins wearing a gown of apple green tulle. They carried Du Barry bouquets of mixed flowers.

The bride was given in white tulle, fashioned with a bouffant skirt edged with lace, and wore a veil of tulle crowned with a wreath of orange blossoms. She carried a shower bouquet of white roses and lilies of the valley. Attending while bride and groom were a group of bridesmaids of mixed flowers.

Empty cocoa cans are nice for spice tins. Hot water dampens clothes far more evenly than cold. Use a vegetable grater on the hard-wooded floors once a week with a soft cloth and clear water.

Never wash the parakey and squeeze it dry in a dish before chopping. Waxes use an oily dusting to be painted, enameled or wicker furniture.

Wipe the hardwood floors once a week with a soft cloth and clear water.

Follow the ceremony a wedding supper was held at the Little Church of the Flowers, where the bride and groom remained three weeks. Upon their return to Los Angeles they will make their home at 305 West Fifth street.

The bride is a graduate of the University of California at Los Angeles, and a member of the Delta Delta sorority, while Mr. Hilton is a student at the same university.

Invitations are being issued by Mr. and Mrs. Juan Zuluaga of 601 West Twenty-second street for the marriage of their daughter, Miss Maria del Carmen Zuluaga, to Hector Perreira, son of Mrs. Carmen Acosta Perreira and the late Manuel Perreira of Mexico City, the ceremony to take place tomorrow evening at St. Vincent's Cathedral, Figueroa at West Adams street, at 7 o'clock.

A reception and wedding supper at the home of the bride's parents will follow the ceremony, and after a honeymoon at Lake Arrowhead Mr. Perreira and his bride will return to Los Angeles.

HAM MOUSSE WITH SAUCE
Two cups of lean cold boiled ham, one tablespoonful granulated gelatin, one teaspoonful mustard, one teaspoonful sugar, one-quarter teaspoonful paprika, one tablespoonful vinegar, one cupful rich milk, two tablespoonfuls chopped green peppers.

Put the ham through the food chopper (fine knife). Boil the gelatin in two tablespoonfuls cold water for ten minutes; then dissolve in the milk, which has been brought to the boiling point; stir until dissolved; pour over the ham and add the mustard, sugar and paprika, which has been mixed with the vinegar; add pepper and mix well. Put into a mold which has been rinsed in cold water. Set in a cold place. When firm remove from mold, to chop plate, which has been covered with lettuce cut into thin strips, and serve with the following sauce.

Three tablespoonfuls soft Mayonnaise, one tablespoonful grated horseradish, one tablespoonful vinegar, tarragon or onion flavor, pepper, onion cupful whipped cream. Mix the ingredients with the vinegar, add the

Raising of Wreck Discloses Line Twisted on Shaft
Carburetor Flooding Due to Efforts to Run Motor
Blast Laid to Spark Issuing from Starter

(Illustration on Picture Page)
A short piece of manila mooring line, tightly twisted on the port propeller shaft, was responsible for the explosion aboard Hugh G. Chaffee's motor yacht *Una-C* at Avalon on the 4th inst. It was revealed yesterday when the shattered wreck of the once-palatial craft was raised in Lubbet's Cove and brought to Los Angeles Harbor.
Under direction of Capt. Ray Griffin a force of salvagers from the staff of the Wilmington Transportation Company worked an entire week in locating and raising the wreck.
"Examination of the port engine shows that Mr. Chaffee had evidently made repeated attempts to start the engine with the self-starter. It obviously turned over once at each attempt, when the rope around the propeller stopped the motor, flooding the carburetor and sending the cabin with gas, which must have exploded from a spark issuing from the starter," Capt. Griffin declared.
The entire upper section of the craft was missing when raised yesterday, while its interior was likewise completely wrecked, although the fire was confined to the cabin section. No effort will be made to salvage the hull, but it is thought the motor can be restored to usefulness.
Capt. Griffin told of having last Friday located the wreck in thirty fathoms of water off Abalone Point while dragging with the tug *Little and Vivo*. It was then dragged along the floor of the bay to shallow water alongside the steamer pier, where the body of little Doris Higgins was found in the wreck by Capt. Fred Henderson, deep-sea diver.

ROBBERY REPORTED BY FILM ACTRESS

Madeline Hurlock, film actress, reported yesterday to Hollywood police that her apartment at 1825 Ivar street was burglarized of clothing and jewelry which she valued at \$2001.85. Entrance to the apartment was gained by springing the lock with a knife blade, it was reported by Detective Lieutenants Prosper and Taylor.

ASCOT RACE INQUESTS TO OPEN TODAY

Coroner Sets Inquiry in Two Deaths for 9:30 a.m.; Injured Driver Improves

Inquests will be conducted this morning at 9:30 o'clock at the Coroner's Court over the bodies of Police Sergeant J. D. Cornwall and Nick Guglielmi, automobile race driver, killed at the Ascot Speedway Saturday night. It was announced last night from the Coroner's office.
Cornwall was killed in attempting to warn others of the impending danger and Guglielmi was the driver of one of the three cars that bunched and crashed into the pits opposite the grandstand, resulting in injury to several others.
Marked improvement was reported last night by General Hospital physicians in the condition of Jack Finlayson, driver of one of the wrecked cars and the most seriously injured. Suffering from a skull fracture and broken leg, he rallied and was conscious for periods yesterday for the first time since the accident. He has better than an even chance to pull through, hospital authorities stated.
Fred Reiser, a mechanic, the only other hospital patient of the five serious injuries in the crash, was reported resting well last night at General Hospital. His condition is very favorable. He suffered a splintered pelvis.
Ray Logan, promoter, will be one of the witnesses called at the inquest. Logan has questioned drivers, mechanics and spectators. He said he intends going ahead with his plans for next Saturday night's event.

Cripple Robbed of Pitiable Hoard of Life Savings

Crippled and penniless, Pontiano Zapinoso, 65 years of age, yesterday found himself facing a hopeless future. For years, looking forward to the time when he may not be able to work at all, he had saved from his small wages—a nickel or a dime a day—until he had accumulated \$200.
This he kept, mostly in small change, in a bag hidden in his room. During his absence Sunday evening someone, apparently familiar with his methods, stole all his savings from his room in a lodging house at 400 North Main street.
At the request of the Goodwill Industries, 345 North Main street, police began a search for the thief. Zapinoso has been employed by the Goodwill Industries for four years, in view of the fact that he is so seriously handicapped he could not hold a position in the regular channels of industry.
He suffers so severely from almost complete paralysis of the legs that it takes him the better part of an hour to walk from his room to his work, a distance of less than a block, his employees say.

Finger Prints of Suspect Are Sent to Canada

Acting on information received from Canadian authorities, W. W. Ashe of the United States Secret Service in Los Angeles yesterday forwarded to Ottawa finger prints of Ivan Galvinovic, recently arrested in the Canadian city. According to Ashe, there is strong evidence that Galvinovic is the same person who was indicted in San Francisco in 1923 for counterfeiting, and was sentenced to two years in Leavenworth prison. He was said at the time to be an associate of John Popovitch who was arrested in New York with a \$250,000 of spurious Bank of England notes in his possession.
Later Galvinovic was indicted here on charges of manipulating figures in his banking books. He was paroled to report monthly, but shortly afterward disappeared.

Funeral Today for Veteran of Civil Conflict

Funeral service will be conducted this morning at 11 o'clock at Pierce Brothers' chapel, 720 West Washington street, for John W. Dorsey, Civil War veteran, who passed away at his home at 1429 Alvarado terrace early Sunday morning.
Mr. Dorsey, during the Civil War, was a member of the Forty-seventh Volunteer Corps, fighting with the Second Regiment under Gen. Sherman. He was past commander of Stanton Post, G.A.R., and very active in Grand Army work.
Mr. Dorsey was 84 years of age and leaves his widow, Ida S. Dorsey, and a son, Orville Dorsey, of this city. Burial will be in the Commanders' plot in Rosecreek cemetery.

Enrollment in Summer School Set at 29,000

Summer schools opened with an enrollment of 19,000 in the elementary and 10,000 in the high schools, according to a statement made by Supr. Dorsey to the Board of Education last night.
A staff of 584 teachers in the grades and 391 in the high school is engaged in the summer work. The number of students attending at the close of the first week this year is heavier than ever before.

TELEPHONE RATE HEARING POSTPONED

Councilman Moore announced yesterday that due to the West Adams storm-drain protest occupying the entire day session, the hearing scheduled for yesterday afternoon on the telephone rate question was postponed until next Thursday in the Council chamber. The hearing will be held before the Council's Public Utilities Committee, of which Councilman Moore is chairman, at 1:30 p.m.

200 San Toy Damask Dresses Today at Bullock's, \$7.95!

At the Section of Women's Better Home Frocks, Bullock's Fourth Floor

A new group of the same type of dresses that received such enthusiastic response when Bullock's featured them some time ago at a higher price. Now at \$7.95 because of a fortunate purchase.

Fashioned of a fabric that resembles silk damask but is made of cotton and Cellanese. Tailored with the care that is usually confined to silk dresses at a much higher price.

Six Smart Styles, Two of them Illustrated
Some are one-piece; some two-piece, but all are just as good-looking as the two sketched. Dresses that fit so well into the summer wardrobe . . . for beach, sports, mountain or better home wear. So easily laundered, too.

Six Fashionable Shades
French blue, pink, soft green, apricot, maize and bois de rose.
Sizes 16 to 44 at \$7.95.
Section of Better Home Frocks . . . Bullock's Fourth Floor

Three-day Collegienne Dress Event Closes Tuesday, \$16.75

Attend Bullock's Concert Hour

Each day from 11:30 till 1 o'clock you are invited to attend Bullock's Concert Hour. The program will be given on the new Orthophonic Victrola and numbers will be explained as they are announced. This will also be known as a "request" occasion. Any number which you would particularly like to hear . . . send in your request through the mail, by phone or in person at the Radio and Victrola section. Concerts will take place in the Rest Room. Bullock's Fourth Floor

For Protection Bullock's Fur Storage

MOTH balls, tar bags. Anti-moth preparations are careless methods of protection. With such methods the larvae still live on in the fur. With Bullock's Scientific Storage all moth life is absolutely destroyed.
Fur Storage . . . Bullock's Third Floor

Telephone Your Order to Bullock's

Use Telephone Service Broadway 6900 throughout each day of the week until 9:30 p. m., Saturdays excepted. On Saturdays, orders taken until 1 p. m. only.

Filmy Georgettes, Sports-type silks, Satins with interesting embroidered dots. Collegienne dresses in so many clever types in this exceptional group at \$16.75.

Dresses to golf in. Dresses for tennis. Dresses for lazy summer afternoons. Even fluttry little dance frocks.

No wonder Bullock's calls this an "event" when dresses so smart, so much in demand by the high school and college girl who wears a size 13, 15 or 17 years, are \$16.75.

Collegienne Shops . . . Bullock's Fifth Floor

Note! Remember Bullock's is open until One o'Clock Saturdays throughout the year.

Emphasizing Tuesday Those Silk Padded Robes at . . . \$10.75

Introduced Monday at Bullock's, a large group so there should still be plenty for Tuesday.

All padded with fine lambswool and lined with soft mull. Crepe de Chine or satin robes in smart light and dark colors.

When have you seen such a saving at \$10.75?
Section of Leisure Robes . . . Bullock's Fourth Floor

Join Bullock's Book Club

—and read "New Books while they are new; Good Books always."

OBERHOFFER OPENS NEW BOWL WEEK

Minneapolis Director to Give Concert Never Heard at Open-Air Theater

Another week of out-of-door concerts in the Hollywood Bowl begins tonight. This week marks the final appearance, for the season, of Emil Oberhoffer, the Minneapolis Symphony director, who opened the summer series.
For the concert tonight Oberhoffer has selected a program never played before in the Bowl. A group of 130 business men from

New York, making a "hands-across-the-ocean" tour, will visit the Bowl as guests of the Hollywood Chamber of Commerce.
Following is the program to be played:
Symphony in D minor (first time in Bowl).
Intermission.
Suite, Woodland Scenes . . . MacDonald
To a Wild Rose . . . MacDowell
From Uncle Remus . . . MacDowell
At a Old Trysting Place . . . MacDowell
To a Water Lily . . . MacDowell
Bird at Sunset . . . MacDowell
Symphony in F major . . . MacDowell
Hungarian March . . . MacDowell

VICTIMS FISH

Jones was talking to some friends of a fishing trip he was contemplating on his holiday. "Are there any trout up there?" questioned one of his friends.
"Trout? Thousands of 'em," replied the other, enthusiastically.
"Will they bite easily?"
"Will they?" reiterated Jones. "Why, they're absolutely vicious! A man has to hide behind a tree to bait his hook!"—[Exchange.]

Two Brothers Injured in Blast at Road Camp

SANTA MONICA, July 12.—Henry Navarro, 40 years of age, was badly injured and his brother, Jesus, less seriously hurt by a delayed blast at a road construction camp in Topanga Canyon today, according to police.
Both dynamite and black powder were being used. The dynamite went off but the black powder did not, it was said, and the crew had approached when the black powder exploded.
Henry Navarro was taken to Martin's Hospital. He may lose his eyesight, it was stated, and he suffered severe face lacerations and cuts on the neck and chest.

HAVING "COLD FEET" LITERALLY TRUE

Emotions have a direct effect upon our bodies. The brain telegraphs through the nerves that it fears something unusual is taking place, and the heart responds.
In the case of terror the result often is that the heart slows down for an instant, or even misses a beat, so checking the circulation of the blood. And as the feet are farthest away, it follows that they are the first to suffer from loss of circulation and so "go cold."
Other emotions, of course, have the contrary effect. They may stimulate the heart and send the blood running more quickly. So it is that we speak of some one being "hot with anger."—[Vancouver Province.]
Not Till Then
The average man doesn't worry particularly about his bad habits until his children acquire them.—[Collier's.]

Buy your household needs when the week is young! Prices are better then and the goods are fresh and complete.

Practical Recipes

WINGS

Clean, singe, and wipe two young birds. Split them down back and quarter. Try out some fat breast and remove scraps, leaving enough fat in pan to saute the wings until tender, and slightly golden colored. Have ready three boiled potatoes, six thin slices of cooked bacon, and two hard-boiled eggs, sliced. Arrange half of the bacon at bottom of a buttered casserole dish, and over the bacon place the wings in same order. Drizzle over some chopped parsley, two-thirds teaspoonful of salt, one-quarter teaspoonful of black pepper, and pour over thick enough brown sauce to barely cover. Let cool, then arrange on top a layer of sliced potatoes, and the near top with beaten egg, make in center an incision to allow evaporating, and bake in a hot oven until pastry is browned, about twenty minutes.

SQUAB CUTLETS

Prepare and split into halves two squab pigeons as for broiling. Make an incision near rump through which introduce the extremity of the bone of the leg. Fold the wings one back, cutting off tips. Lightly strike the pigeon with the rolling pin, then roll in melted butter, seasoned with salt and pepper. Saute eight minutes in a little hot melted butter in a frying pan over a good fire, until pigeons are golden colored. Remove and reserve each pigeon arranged between two dishes, to cool and press into shape. To a pan set over a slow fire, add two-thirds of a cupful consommé; stir the bottom, give a bubble and strain. Return the pigeons to pan, and add the hot strained liquor, also the meat liquor left on the dish used in pressing. Cover, and bake in a moderate oven till tender, about ten minutes. To serve, pile on center of a hot serving dish a mound of vegetables. Arrange the squab cutlets around it, placing a chop frill on each leg bone. Send sauce in a boat. Season: Stir the green of the liquor, strain, and thicken with a very little cornstarch, in the usual manner.

MAPLE PARFAIT

Four eggs, one cupful maple syrup, one pint chilled cream. While beating the eggs in a small saucepan, slowly add the maple syrup. Set over a slow fire and cook, stirring at bottom constantly with a wooden spatula, without allowing it to get too hot, until it makes the spoon. Remove and chill. Beat the cream to a stiff dry froth. Combine the two mixtures, pack in mold, then in salt and ice.

MOUSSE

A very simple way to make mousse is to mix a pint of strained fruit pulp of any kind with a cupful of powdered sugar and a tablespoonful of granulated gelatine dissolved in a little water. Set in the lower part of the refrigerator and when the mixture begins to thicken stir in a pint of stiffly whipped cream, measured before whipping, and freeze. In serving, garnish each portion with whole or sliced fruits of the same variety.

INDIVIDUAL CHICKEN SHORT CAKES

Two cupfuls pastry flour, four level teaspoonfuls baking powder, one-half teaspoonful salt, one-third cupful butter, two cupfuls milk.

FILLING

One-quarter cupful butter, one-quarter cupful flour, one-half teaspoonful salt, one-quarter teaspoonful pepper, two cupfuls chicken broth, two cupfuls cooked chicken (in cubes).

Make biscuit of ingredients for shortcakes; cut about three inches in diameter. Melt butter; add flour and seasonings; add broth, stir until boiling, add chicken. Bake short cakes split in half, put filling between layers, over top. Serve hot.

CORN BEEF AND PICKLE TONGUES

A. D. San Pedro, Cal. Soak a keg and dry it exposed to the sun; then reserve it in a cold, dry place.

The beef utilized to make corned beef is cut from the brisket, thin and thick flank, short ribs, and lower round. Arrange the pieces, chilled, but not frozen, in keg, pour over the following cold brine, and seal over the top a dish cover with a weight on top to keep the meat immersed. Let stand covered two weeks in brine in a cold place before using it. Brine: Put in an enameled kettle two gallons of water. Add from two to two and two-thirds ounces of crystallized salt-peter, and bring to a boil, stirring until dissolved. Add three and one-half pounds of salt and two-thirds of a cupful of molasses or brown sugar; stirring, bring it to a boil, simmer ten minutes, and skim, then let it thoroughly cool. This brine will keep a month or longer, but if tongue or pork are to be pickled, they should be pickled separately, else the brine will not keep long enough.

PUFF PASTE

H. L. M. Ocean Park. The cupfuls flour, one cupful crisco, one and one-half teaspoonfuls salt water.

Mix and stir flour and salt. Cut in two tablespoonfuls of the crisco with a knife. Add only enough water, a few drops at a time, to make the paste hold together. Knead the dough five minutes, cover and chill. Roll out to one-quarter inch thickness, keeping the paste a little wider than long and corners square. Place remaining crisco, softened and shaped into a circular piece, in center of one-half of paste. Fold other half over it, pressing edges firmly to inclose as much air as possible. Fold right side over and left side under the inclosed crisco. Chill. Roll out, keeping the paste always rectangular in shape and rolling away from you. Fold ends toward center, making three layers. Chill. Roll out, fold again, and repeat process four times. (Paste is better made the day before it is baked and should be icy cold when put in the oven.)

PATTY SHELLS

Roll out puff paste to one-quarter inch thickness. Cut with a round cutter, floured. Remove centers from one-half of these circles with a small cutter. Wet the edges of the whole circles and place the rings on them. Brush the tops carefully with slightly beaten egg mixed with one tablespoonful water, taking care not to moisten the sides. Chill in ice box until paste is stiff. Bake in a hot oven (400 deg. F.) about twenty minutes. Bake the small centers in a quick oven (450 deg. F.) ten minutes and use them as tops after the shells are filled.

A Hop Farm

Texas has a large corporation devoted to raising frogs for the market, the tract of land used being a great natural swamp, the home of thousands of frogs. The fish have been taken out and the series of lakes made in the swampy lands will be the growing place for the frogs and Texas now claims it will have the largest frog farm in the world.—(Ohio State Journal.)

TEN YEARS WED PROVES AMPLE

Husband Married Decade Packs Grips and Takes Leave of Matrimony

For Joe C. Hart, ten years of marriage was ample, he told his wife, Lillian J. Hart, who thus explained his desertion of her in Judge Valentine's court yesterday.

"He did not have anything in particular to complain of against me," she said. "He just told me that ten years was enough, packed up his belongings and left."

She was granted a decree.

FRENCH CELEBRATE TOMORROW

Fall of Bastille Will be Observed Here

The bugaboo of bad light in schools and factories is no argument of some one's imagination, according to Guy A. Henry of New York, general director of the Eyesight Conservation Council of America. He said that one-third of the 6,000,000 retarded pupils in American schools were in their present condition because of neglected eyesight that could be partially corrected by proper illumination. Factory waste chargeable to poor lighting in this country, he declared, totals \$30,000,000 of industrial waste and industrial accidents due to poor lighting cause an annual loss of \$300,000,000.

Mr. Henry appealed for better understanding of lighting problems by school and factory authorities and urged that legislators wake up to the remedies that can be applied by sane legislation. Progress is already being made toward correction of eyesight difficulties, he said. Today the art of diagnosis and correction of eye defects in America is far in advance of the practice in other countries. "In a few years," he said, "a cross-eyed person will be virtually unknown."

The New Version

"Are you going to invite George to your dance?"

"Heaven, no! He always puts a dry blanket on everything."—(Exchange.)

TREMENDOUS WASTES

DUE TO POOR LIGHT

The bugaboo of bad light in schools and factories is no argument of some one's imagination, according to Guy A. Henry of New York, general director of the Eyesight Conservation Council of America. He said that one-third of the 6,000,000 retarded pupils in American schools were in their present condition because of neglected eyesight that could be partially corrected by proper illumination. Factory waste chargeable to poor lighting in this country, he declared, totals \$30,000,000 of industrial waste and industrial accidents due to poor lighting cause an annual loss of \$300,000,000.

ADAM'S APPLE IS SAID

TO BE DISAPPEARING

The haberdasher, who is called upon frequently to make examination of the neck proportions of his customers, and the collar manufacturers, who have been catering to man's necks for generations, are practically agreed that the "Adam's apple" which once manifested itself so prominently, moving up and down following the words and emotions of the speaker, is disappearing. The explanation attributes the disappearance to the use of tight collars, principally and to the use of soft food incidentally. Some scientists to whose attention the matter was called agreed that from a casual observation they believed that the "Adam's apple" was not nearly so much in evidence as it was two generations ago, but they said that it was not disappearing entirely, but was simply becoming less prominent.

The loss of the "Adam's apple" will be felt more keenly in the nursery than elsewhere, as it is with papa's watch and chain among the first things to attract the interest and curiosity of the baby. It was the first thing the baby noticed and it long held the child in wonder as it watched the laryngeal protuberance dash in and out there and there, and disappearing for a time entirely. But "what we do not know we do not miss" and the children of the present generation do not know what amusement they are missing by the disappearance of the "Adam's apple."

STUMPED THE INSURANCE MAN

Uncle Eben Jones went to an insurance office to take out a life policy.

"Why, uncle," said the insurance man, "you're too old for us to take the risk. How old are you, anyway?"

"I'll be 97 come next August," replied the old man, then added testily, "If you will take the trouble to look up statistics you will find mighty few men die after they're 90."—(Exchange.)

Crisco

from Seattle's Prize Raised Doughnuts

Another delicious recipe by Mrs. G. S. Gahberg, who won the fourth prize in the recent Crisco Coast recipe contest. You will find these doughnuts, deep fried in hot Crisco, rich yet digestible, never greasy.

1 cake compressed yeast
2¼ cups milk scalded and cooled
1 tablespoon sugar
¼ cup pastry flour
¼ teaspoon salt
¼ cup sugar
1½ tablespoons Crisco
¼ teaspoon mace
1 egg well beaten

Dissolve yeast and 1 tablespoon sugar in lukewarm milk. Beat in ¼ cup flour. Cover, rise in warm place about an hour or until bubbles burst on top. Then add Crisco, sugar, salt, mace and egg, well creamed together, then rest of flour. Knead lightly. Place in Criscoed bowl, cover and rise again 1½ hours, or until about double its bulk. Turn on floured board, roll about ¼" thick. Cut with small doughnut cutter. Rise again until double their size. Drop in hot Crisco (360° F) with side next to the board uppermost. Fry to golden brown. Drain on soft paper. Roll in sugar when cool. Test doughnuts with toothpick. [All measurements are level]

Safeway Stores

—at Safeway—and Chaffee Stores—

Seasonable merchandise! Cool beverages and foods suited to warm weather and for outings, for your greater comfort and enjoyment, are featured by the Safeways.

Attention to your needs—helpful suggestions by experienced grocers—the best of foods, and of importance—savings! "Around the corner is your Safeway."

—in the face of an advancing market, a pineapple special that will induce heavy buying!

An excellent standard brand under "Discovery" label.
